

# A VISION FOR DELIVERING WELLNESS WHERE IT'S NEEDED MOST

Before establishing Wilcox Distribution, I planted my feet and set into motion multiple ventures with one key **Vision** in mind. I created a company that would provide health, wholeness, and access for all people, by delivering healthcare and healthcare products to those most in need: underserved and rural communities.

Wilcox Distribution is a leading distributor with an extensive inventory of PPE products, such as safety masks, hospital gowns, and other essential items. We also offer medical equipment, drug-screening tests, and COVID test kits, including COVID virus and COVID antibody testing. We have industrial grade virus-killing cleaners and disinfectants, as well as a new air filtration system proven to kill COVID-19.

All our products are regulated to the highest standards required by the FDA and EPA.

*Hi, I'm Chris Wilcox and I believe, together, we can accomplish many things, as 1.*

Clients using our products include NFL, NBA, ACC, US Foodservice, and more.

So, whether you are a hotel, school, casino, business, clinic, hospital, or medical center, we have safe and reliable products and solutions for you.

**Together, let's stay safe, informed, sanitized, and secure.**

**THIS IS OUR SYMBOL,  
WHICH MEANS ALL IN... AS 1.**
