WILCOX DISTRIBUTION'S CRRSA ACT ESSER II FUND COVID SOLUTION Helping Reopen Schools Safely to Protect Teachers, Students, and Staff

You have the funding.

The Coronavirus Response and Relief Supplemental Appropriations Act (CRRSA Act) includes \$53.4 billion for the Elementary and Secondary School Emergency Relief Fund (ESSER II Fund) supporting COVID-19 response efforts.

We have your COVID-19 response to reopen schools now.

Wilcox Distribution is a best-in-class, trusted distributor of the world's only FDA-certified device scientifically proven to kill 99.999% of COVID-19 instantaneously and in a single pass. IVP Biodefense Indoor Air Protection System™ also eradicates anthrax spores, flu, ebola, viruses, germs, bacteria, and other airborne contaminants. The device does not use harsh chemicals. Instead, it combines innovative, award-winning HEPA filtration with heat technology to provide clean, fresh, virus-free air in all indoor spaces.

Best of all, we have the processes to help you streamline your application and aid you in getting immediate funding to install your IVP system.

OUR CORE COVID-19 SOLUTION

IVP Biodefense Air Protection System™

We are the exclusive distributor of the world's only plug-and-play, FDA-certified air filtration device that is scientifically proven to catch and kill 99.999% of COVID-19 instantaneously, in one pass.

Available as both mobile units and a filter that can be retrofitted to existing HVAC systems, this award-winning new technology is being deployed in school districts, hotels, restaurants, office buildings, universities, and healthcare facilities across the US.

IVP's scientific research partners include University of Houston Department of Physics and Texas Center for Superconductivity, University of Texas Medical Branch Department of Microbiology and Immunology Aerobiology Division, Galveston National Laboratory Preclinical Studies Core / Infectious Disease Research for Global Health Security, University of Houston College of Medicine Departments of Biomedical and Clinical Sciences, and National Institutes of Health (NIH) National Institute of Allergy and Infectious Diseases (NIAID).

This groundbreaking technology was recently named by *Engineering News-Record* as a Top 25 Newsmaker for 2020, it is the recipient of the American Society of Mechanical Engineers 2020 Emerging Technology Award, and it is endorsed by the Texas Restaurant Association.
